

CLAIMS

What is claimed is:

5

1 A method for increasing player interest in games of chance, comprising:

providing a game machine configured to enable a player to play a game
whose outcome is based on chance in exchange for a wager and further
comprising a printer operable disposed therein;

10

providing a lottery ticket purchasing pool in said game machine;
funding said lottery ticket purchasing pool on an incrementally increasing
basis;

issuing a lottery ticket from said printer when said lottery ticket purchasing
pool reaches a predetermined value and when a game play finishes.
